Mr. James Mallon  
Early Site Permit Manager  
PSEG Power, LLC  
244 Chestnut Street  
Salem, NJ 08079

SUBJECT: CHANGE IN SCHEDULE OF PSEG SITE EARLY SITE PERMIT APPLICATION  
REVIEW

Dear Mr. Mallon:

On August 4, 2010, the U.S. Nuclear Regulatory Commission (NRC) docketed (Agencywide Documents Access and Management System (ADAMS) Accession No. ML102010714) the PSEG Site Early Site Permit (ESP) application, submitted by PSEG Power, LLC, and PSEG Nuclear, LLC (PSEG). On November 29, 2010, the NRC issued a schedule for both the safety and environmental reviews (ADAMS Accession No. ML102780654). Subsequently, on December 23, 2011, the NRC issued a letter (ADAMS Accession No. ML111390147) transmitting revised safety and environmental milestones.

Recently, you informed the NRC that your response to two Requests for Additional Information (RAIs) involving the review areas of "Vibratory Ground Motion" and "Identification of Potential Hazards in Site Vicinity," will be delayed by three and four months, respectively. These delays have impacted the safety review milestones as well as the overall project completion milestone. The environmental review milestones remain unaffected by these delays. When responses to these RAIs are received, we will assess and inform you of any additional impact on the schedule.

The NRC has modified the review schedule based on the aforementioned delays. The revised schedule for the PSEG Site ESP application review is enclosed. The NRC review of this application is continuing to proceed on the revised schedule.

J. Mallon
