I will send a meeting invite in the AM with call-in information, but we're all aligned for 2:30pm EST.

We plan to provide an overview of 2011 events at the plant and the status of NRC regulatory actions regarding these events. Is that appropriate, or would you like to scope the briefing to focus on last week's shut-down or just Wednesday's regulatory conferences (to discuss recent White and Yellow preliminary findings)?

Matt and Mary Louise,
Jack Giessner is the NRC Branch Chief responsible for Palisades. He is open tomorrow for a call between 11am and 3:15pm EST or at 5:45pm. Thursday afternoon is the next opportunity.
What would work for you both?

Lets try for tomorrow afternoon if that works for you. What times work best?

Appreciate you doing this. I think Mary Louise from Senator Levin's office will also join. She's Cc'd.

Matt

Matt,
I have coordinated with Jack Giessner, the NRC branch chief overseeing Palisades, to provide a phone briefing to you on the recent findings and maintenance at Palisades. Is there a good time Tuesday? It's also possible to conduct the briefing this afternoon. Please let me know if you're interested and what would work with your schedule.
Thank you,

Timothy Riley

Subject: Palisades findings

Matt,
I'm in Ohio for a public meeting today, but David Decker shared your briefing request with me. I will work with NRC staff to coordinate a call next week, if that's ok. We can cover the specific findings and the overall picture at the plant. Would early next week work for you?
Thanks,
Tim
