Dear Sir or Madam,

The purpose of this letter is to request an increase of maximum levels of byproduct materials permitted as listed under lines 8 C and D of the license referenced above as follows:

- Line 8 C (Hydrogen 3): Current maximum: 2 Curies. Requested limit: 4 Curies.
- Line 8 D (Nickel 63): Current maximum: 51 Curies. Requested limit: 100 Curies.

This request has been made necessary by the continued exclusion of non-Atlantic Compact region organizations from the Barnwell SC waste facility.

Please contact David S. Bennett (RSO) at 302-636-8262 if you have any questions about the application.

Thank you,

Lou Terry
