Attention: Radioactive Materials Licensing

Subject: Radioactive Materials License Number **29-02477-01** Termination Request
Mail Control Number **123737**

Dear Mr. Lodhi:

Thank you very much for your call regarding SGS U.S. Testing's request to terminate its Radioactive Materials License. As we discussed, our Nickel 63 Electron Capture Detectors have been successfully transferred to our supplier's General License as indicated by the attached correspondence from Hewlett Packard.

Regarding the Carbon 14 sample, following is a chronological history of events that traces the status of that material during the period in which it was in our possession (please refer to attached documents):

- Carbon 14 sample (2 ml of liquid), which at that time was added to our NRC License, was received for testing by our Microbiology department in Hoboken, New Jersey (1415 Park Avenue, Hoboken, NJ 07030) on 06/15/92.
- Radioactive biodegradation study was conducted on 07/27/92 and wipe samples were taken from the work area (laboratory hood) for leakage survey (07/28/92 - 07/31/92).
- Carbon 14 is sealed for final disposition in test tubes and stored in a closed foam box within a larger cardboard box (07/31/92).
- Teledyne Isotopes is contacted by U.S. Testing to make arrangements for sample (currently in storage and untouched since 07/31/92) to be removed from our premises (10/27/94).
- Carbon 14 sample is transferred to Mr. Hector Martos of Teledyne Isotopes (as documented on CHAIN OF CUSTODY FOR RHONE POLENC C14) on 12/19/95.

Re: Acknowledgment of Transfer of Electron Capture Detector

Dear Customer,

This is to acknowledge that Electron Capture Detector(s), Serial Number(s),

M1930, M1040, M1543 & M1348

were received on 9/25/96, and were transferred on 9/30 to:

SGS U.S. Testing
291 Fairfield Ave
Fairfield, N.J. 07004
Attn: Lee Frederick.

Sincerely yours,

A handwritten signature in cursive script, appearing to read 'Peter Johnson'.

Attention: Scott Dennerlein

Enclosed please find wipe samples taken from our Microbiology Lab (Carbon 14).

- Sample #1 - Black Base of the Hood - samples taken on 07/28/92.
- Sample #2 - White Base of the Hood - samples taken on 07/28/92.
- Sample #3 - Cardboard Box which is stored in lab refrigerator - samples taken on 07/28/92.
- Sample #4 - Walls on the lab refrigerator - samples taken 07/28/92.
- Sample #5 - Black Base of the Hood - samples taken on 07/31/92.
- Sample #6 - Black Base of the Hood - samples taken on 07/31/92.

I would appreciate if you could notify me as soon as the samples have been analyzed. If I could be of any further assistance in this matter, please contact the undersigned at 1-800-777-8378 ext. 406.

Sincerely,

A handwritten signature in cursive script, appearing to read "Linda Monro".

Re: Letter dated July 31, 1992, to S. Dennerlein

Dear Ms. Monro:

The smears you sent on July 31, 1992, were analyzed by liquid scintillation counting with standard solutions traceable to the National Institute of Standards and Technology. Results of the analyses are enclosed.

If you have any questions or require clarification, please call me.

Sincerely,

TELEDYNE ISOTOPES

Dear Mr. Martos:

Enclosed is information regarding the radio labeled compound we wish to have disposed, possibly through thermal destruction. The volume is less than 2mls. The radioactivity is less than 200 μ Ci. The materials are degradable and combustible.

Please provide a price quote for its disposition as soon as possible.

Yours truly,

RE: Disposition of 14C-DV-2422

Dear Mr. Drozdowski:

This letter follows up on our phone conversation of September 29, 1995 and your letter dated September 27, 1995 regarding the disposition of the referenced radioactive test material. Rhône-Poulenc has been in contact with Chem-Nuclear in Barnwell, South Carolina and is in the process of making arrangements for pick-up and disposal of this sample. We expect to have more information on the scheduling for this matter in the next few days and will keep you apprised with these plans.

We apologize for any inconvenience caused by the delay in making these disposal arrangements. Please feel free to call me with any questions.

Very truly yours,

Paul E. Linskey
