BSL-2 Laboratory

**BIOHAZARD**

All Personal Protective Equipment shall be removed prior to leaving this work area.

Before, during, and after working, appropriate use of eye protection and handwashing is required.

Name of infectious agent: E. coli

Investigator: D. Capone & D. Williams

Investigation number: BSL-2-01

Special requirements for entering this area:

Emergency contact:  
Name: John Doe Title: BSL-2-01  
Address: 1234 Main St Phone: 555-1234

Regulatory and safety information: BSL-2 is a controlled area where agents of moderate potential hazard are handled. BSL-2 is a controlled area where agents of moderate potential hazard are handled. BSL-2 is a controlled area where agents of moderate potential hazard are handled.

BSL-2 Laboratory

BIOHAZARD

All Personal Protective Equipment shall be removed prior to leaving this work area.

Eating, drinking, smoking applying cosmetics or lip balms and handling contact lenses are prohibited in this work area.

Name of infectious agent(s): E. coli

B. cereus & B. anthracis

Transmission route(s): Prokaryotic DNA & G2

Special requirements for entering this area

Emergency contacts:

Name: Ngai Ching Lo Title: Deputy Chief Pharmacist 182-1276

Simon Wong Scientist 182-1118

Emergency Level 1 is similar to BSL-1 and is suitable for work involving agents of unknown potential hazard to personnel and the environment. BSL-2 is similar to BSL-1 in that:

1. All personnel have specific training in handling pathogenic agents and directed to competent training.
2. Access to the lab is limited when work is being conducted.
3. Accidental procedures are taken with contaminated sharps and waste.
4. Containment procedures in which infectious materials or samples may be created are conducted in biological safety cabinets or other physical containment equipment.

ANIMAL HOLD

Notice to IACUC Personnel  
**Humane Animal Care and Use**

All personnel working in the Department of Biology are strongly urged to review this notice and all of the regulations in its entirety. It is the policy of the Department of Biology to ensure that all personnel are fully informed of the regulations and procedures that govern the humane care and use of animals in research. It is the responsibility of all personnel to ensure that all animals are treated humanely and that all procedures are carried out in accordance with the regulations and procedures that govern the humane care and use of animals in research.

Category	Responsible Party
1. IACUC Approval	Department of Biology
2. Animal Care	Department of Biology
3. Animal Use	Department of Biology
4. Animal Welfare	Department of Biology

No additional actions will be taken against anyone violating a regulation. However, if you are ever required to give your notice.
