Marty Barker
Power Production Manager
City of Independence, Missouri
Power and Light Department
21500 E. Truman Road
P.O. Box 1019
Independence, MO 64051

Dear Mr. Barker:

This refers to: (1) your letter dated February 29, 2012 requesting to amend your license with a new radiation safety officer (RSO), and (2) our telephone conversations on March 12 and May 2, 2012. During the telephone conversations, you indicated that the proposed RSO has not completed the required training as recommended in NUREG-1556, Volume 4, all of licensed materials have been transferred to Thermo Fisher Scientific in Sugar Land, Texas, and you are going to terminate the license.

As we discussed during the telephone conversations, we have voided your request. If you would like to terminate your license, please provide a request with Form 314, a copy of last leak tests for all sealed sources and a copy of the receiving receipt from Thermo Fisher Scientific.

If you have any questions or require clarification on any of the information stated above, you may contact us at (630) 829-9887.

In accordance with 10 Code of Federal Regulations 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

Frank P.D. Tran
Materials Licensing Branch
