

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D.C. 20555-0001

June 14, 2012

MEMORANDUM TO: The File

FROM: Janice E. Owens, Branch Chief  
Export Controls and International Organizations  
Office of International Programs *Janice Owens*

SUBJECT: ISSUANCE OF LICENSE WITHOUT WAITING FOR  
EXPIRATION OF 30 DAYS PUBLIC NOTICE FOR EXPORT  
LICENSE XR172/03

On June 6, 2012, Curtiss-Wright Electro-Mechanical Corporation submitted a corrected list of "Other U.S. Party(ies) to Export" to replace the original list for pending export license application XR172/03. The original list had inadvertently omitted several other U.S. parties to export from the existing license XR172/02.

Since this revision to the original license amendment application (XR172/03) was not significant and the original application had been released to the public for more than 30 days, additional 30 days was not imposed and OIP intends to issue the license.
