

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D.C. 20555-0001

June 26, 2012

Mr. Daniel Morris  
Acting Regional Administrator  
National Marine Fisheries Service  
Northeast Region  
55 Great Republic Drive  
Gloucester, MA 01930-2276

SUBJECT: NOTICE OF AVAILABILITY OF THE DRAFT SUPPLEMENT TO THE FINAL  
PLANT-SPECIFIC SUPPLEMENT 38 TO THE GENERIC ENVIRONMENTAL  
IMPACT STATEMENT FOR LICENSE RENEWAL OF NUCLEAR PLANTS  
REGARDING INDIAN POINT NUCLEAR GENERATING UNIT NOS. 2 AND 3  
(TAC NOS. MD5411 AND MD5412)

Dear Mr. Morris:

The U.S. Nuclear Regulatory Commission (NRC) has prepared the enclosed draft supplement to the final plant-specific Supplement 38 to NUREG-1437, "Generic Environmental Impact Statement for License Renewal of Nuclear Plants" (GEIS), regarding the license renewal of Indian Point Nuclear Generating Unit Nos. 2 and 3 (IP2 and IP3). The proposed action (license renewal) is not a major construction activity.

The NRC staff published its final supplemental environmental impact statement (FSEIS) for IP2 and IP3 in December 2010. Subsequent to publishing the FSEIS, the NRC staff identified new information that necessitated changes to its assessments in the FSEIS. This new information is derived from the following:

- Entergy Nuclear Operations, Inc. (Entergy) provided comments on the FSEIS that included new information on the entrainment and impingement field data units of measure, and
- Entergy completed and submitted to the New York State Department of Environmental Conservation a new study that characterizes the IP2 and IP3 thermal plume.

Updated information is also provided in the enclosed draft supplement regarding the NRC's consultations with the National Marine Fisheries Service (NMFS) concerning shortnose and Atlantic Sturgeon at IP1 and IP3.

D. Morris
