Dear Dr. Hancock:

Enclosed is Amendment No. 17 to your NRC Material License No. 24-26563-01 terminating your license, in accordance with your request.

In letters dated April 4, 2012, and May 18, 2012, you requested the merger of License No. 24-26563-01 into License No. 24-00128-03, concurrent with the termination of License No. 24-26563-01. The requested termination and merger of licensed activities has been accomplished.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

Please address any questions you may have concerning this amendment to me at (630) 829-9841. My fax number is (630) 515-1078. My email address is Colleen.Casey@nrc.gov.

In accordance with 10 Code of Federal Regulations 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions.

S. Hancock

Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

Sincerely,
