Subject: RE: References for today's call

John,

I passed along the list of documents to the reviewers. I am a little concerned with this list. Therefore, I want to reiterate the point of this call, and that is for the staff to clarify any confusion Exelon may have with the draft RAI. This is not a call to discuss the adequacy of the LRA as supplemented.

Rob

It probably goes without saying Rob, but hopefully the all the reviewers will have the previous respective LGS RAI responses handy as well. Thanks.

Subject: References for today's call

Rob,

To make today's call most useful,

The following references would be useful to have on hand for the discussion of DRAI 3.1.1.38-1.1

1. GALL Report AMP XI.M12
2. Letter with SER from C. Grimes (NRC) to D Walters (NEI), Thermal Aging Embrittlement of CASS Components, May 19, 2000.
3. Response to RAI 3.1.1.38-1
4. GALL Report Section VII.H2 AMR Line Items

The following references would be useful to have on-hand for the discussion of draft RAI 4.2.1-1:

- 1) NUREG-1800, Revision 2, Section 4.2.2.1.3, Pressure-Temperature (P-T) Limits
- 2) LGS LRA Section 4.2.4, Pressure-Temperature Limits
- 3) LGS LRA Section 4.2.1, Neutron Fluence Projections
- 4) LGS UFSAR Section 4.1.4.5, Neutron Fluence Calculations
- 5) LGS UFSAR Section 4.3.2.8, Vessel Irradiations
- 6) Letter dated January 24, 2012, Response to NRC Requests for Additional Information dated December 15, 2011, RAI 4.6.5-1, pages 2-4.

If possible, please pass this on to the appropriate staff. Thanks.

John Hufnagel
