Hi Rob...I was misinformed. (regarding drivers license) I just did a double check and we do need SS numbers...see below for more info and I'll let you make the decision (full or partial SS #s) on what's best for your team

The last four digits of their social will be fine (XXX-XX-1234). They will need to produce their full socials when they are visitor processed along with government identification so they can be run through the PADS and INSS systems. The advantage to having their full socials is that if there are many visitors, we can pre-load them in the system ahead of time to expedite their access when they get here. Otherwise, there will be some waiting around for the system to process their names if we do the whole process in the visitor lobby. If there are only a few of them, it shouldn't take very long to process them if we don't pre-load the information.
