Rob

Also wanted to make sure Billy knows we "filtered out" non-equipment related reports from this sort. We can put them back in but it would increase the population substantially

Hi Rob

I believe Billy Rogers stated he did not want our want to see OE list prior to the audit, but that he did want to see some sample lines from our search just to be sure that it has what they need in it.

Attached is a partial list of IRs (under the Total unfiltered TAB) from our OE searches. Columns A thru G are in the NRC spreadsheet. We added columns H through P to this list because it adds more information that might be critical especially as our CAP system is in PASSPORT and our work execution is done in PIMS The info in these columns will make it easier for us to do followup research on anything that you want to explore further (such as the associated PIMS AR number). We can easily remove columns H through P if you wish.

Please pass this along to them to see if we need to tweak or adjust

Thanks Chris
