Power Plant, Nine Mile Point Nuclear Station, and Calvert Cliffs Nuclear Power Plant to meet the schedule in Requested Responses 2, 4, and 5 cannot be determined until the NRC issues guidance on screening and prioritization criteria.

We will comply with Requested Response 1 of Reference (a) within 60 days of issuance of NRC guidance by submitting either our intention to follow the guidance or a proposal of an alternative approach. This is a regulatory commitment. At that time, we plan to assess whether we can meet the submittal schedule for the seismic hazard evaluation and seismic risk evaluation in Requested Responses 2, 4, and 5 and take the appropriate regulatory action.
