I do not have any draft RAls yet.

Some AMPs the reviewer did not want a breakout session scheduled. The programs are those that were in the word document that I sent you.

Rob

I have attached the schedule for the first week. We were just notified of one site reviewer who is not available next Thursday and Friday due to attending a funeral. As such I have moved some stuff around. Whenever possible I tried to limit to two activities at one time but at certain times it was not possible. Please look it over and let me know if I missed something or you see any issues and I will adjust.

Monday morning I thought we could have a quick get together to do a quick meet and greet and go over logistics (where the books are etc.). We could give that in a short presentation style or just a quick talk...your decision... we can handle either one

Notice that right now Friday is clear and we could use that as an overflow day. I would still like to get your metal fatigue/TLAA folks talking to our person earlier than later...it would be great if they could have there first discussions Monday afternoon.

A couple of questions.

1. I noticed not all of the programs were on the schedule...do you now know for sure what programs will be reviewed at the audit?
2. Do you have any draft RAI questions that you can share ahead of time so that we can start preparing or if not could we get a look at the questions at least a couple of hours prior to the breakout session.

Thanks Chris

Subject: Schedule

Chris,

If you get a schedule for the first week, could you forward that to me so that I can make sure the reviewers don't have any major issues with it? Thanks.
