Mr. Joseph L. Ernst  
Executive Vice President  
Shaw Modular Solutions  
3191 W. Lincoln Rd.  
Lake Charles, LA 70605

SUBJECT: SHAW MODULAR SOLUTIONS RESPONSE TO NRC INSPECTION REPORT  
99901401/2011-202, NOTICE OF NONCONFORMANCE

Dear Mr. Ernst:

Thank you for your March 9, and May 23, 2012, letters in response to the Notice of Nonconformance (NON) that was discussed in the subject U.S. Nuclear Regulatory Commission (NRC) inspection report (IR).

We reviewed your letters and held a call with you and your staff on June 12, 2012, seeking further clarification. Specifically, during the June 12, 2012, phone call it was clarified that the Welding Operator Qualification Continuity Log will be based on documentation such as traveler packages, weld joint numbers, and weld records, which provides the evidence that the welding operator has maintained the appropriate qualifications. This is further substantiated by a welding engineer actually witnessing the welding used to maintain the welding operator qualification. The NRC has found that the information provided in your letters and phone call is responsive to the NON documented in IR 99901401/2011-202. We have no further questions or comments at this time and may review the implementation of your corrective actions during a future NRC staff inspection to determine whether full compliance has been achieved and maintained.

Please contact Ms. Kerri Kavanagh at (301) 415-3743 or via electronic mail at Kerri.Kavanagh@nrc.gov, if you have any questions or need assistance regarding this matter.

Sincerely,

***/RA for/***

Edward H. Roach, Chief  
Mechanical Vendor Branch  
Division of Construction Inspection &  
Operational Programs  
Office of New Reactors
