Attn: Freedom of Information Act (FOIA) Request

**Re: Freedom of Information Act (FOIA) Request**  
**Our File No.: 11-8306**

Dear Sir/Madam:

In the document entitled "In the Matter of Entergy Nuclear Operations Inc.; Confirmatory Order Modifying License"(Federal Register citation 77 FR 5853), dated February 6, 2012 (and annexed to this FOIA request), a case study is mentioned on page 5855 (under Section V(B.)):

*"Entergy will prepare a case study about the event that formed the basis of the CO, highlighting the role of those who had the opportunity to detect, report and prevent the misconduct, as well as on the actions of the individuals who engaged in this misconduct. The Site Vice President or General Manager for Plant Operations at each of Entergy's nine commercial nuclear power plants will present the case study during two station-wide meetings to ensure that both day and night shift personnel will have the opportunity to attend. Entergy will complete these presentations within 180 days of the date of the CO. Entergy will make this case study available for NRC review before conducting these station-wide meetings, and will notify the senior resident inspectors at each of the Entergy sites regarding the dates and times of these meetings at their respective sites."*

June 4, 2012

We hereby request, pursuant to the Freedom of Information Act, a copy of this "case study" performed by Entergy regarding "the event that formed the basis of the CO [Confirmatory Order]." Please send a copy of the file to my attention at your earliest convenience.

In recent correspondence between my associate, Raymond A. Franklin, Esq. and the NRC Public Documents Room department, Mr. Franklin was informed that this document was not yet in the NRC's Agencywide Documents Access and Management System (ADAMS), and that the case study has possibly not yet been officially issued. If this document is not yet available, we request that you please consider this a FOIA request for when the document does become available. Thank you for your anticipated cooperation in this matter.

Please do not hesitate to contact me if you have any questions or require any additional information.

Very truly yours

Donald L. Sapir
