Subject: Comments on PRM-50-104, Docket ID NRC-2012-0046

June 12, 2012 (3:10 pm)

OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

I request that the NRC adopt the proposed rule expanding emergency planning zones to the respective 25, 50, and 100 mile zones and add a new requirement that emergency exercises include scenarios of regionally appropriate initiating or concurrent natural disasters.

At my home near the Vernon, VT nuclear plant, we have had a hurricane with severe flooding, an earthquake, and killer tornados in the past year. Weather is getting more extreme and I am not confident we can evacuate the plant during such extremes.

I teach young children and am also concerned about the effects of radiation on young children. We especially need to evacuate children further than the current 10-mile range.

Please update the evacuation planning!

Thank you,

Susan Kramer
