Attachments: NRC Advance Notice 21216-TNI-101 REV 1 signed.pdf

Be advised that this transport is back on again.
One cylinder was removed due to a technical problem.

I have revised the notice to show the updated piece count and the new vessel/voyage and applicable dates.

I called and left a voicemail for Bob Caldwell to discuss this matter.

Please let me know if ok or if you see a need to delay this transport.

Feel free to call me or reply via email.

Thank you,

Sincerely,

Re: Transnuclear reference: **21216-TNI-101 REV 1**
Advance notification for an import shipment of nuclear material.
This is a revision because shipment was delayed to modify the total cylinder count. The shipment went from four cylinders to three cylinders. The delay caused a change in vessel info and all relevant transport dates.

This letter constitutes Transnuclear Inc.'s advance notification to the USNRC in compliance with the requirements as outlined in 10 CFR 73.74(a)(1)(2) for import shipment of low strategic significance material from countries that are not party to the Convention on the Physical Protection of Nuclear Material.

Details of this shipment as required in 10 CFR 73.74(a) (3) are as follows:

Per 10 CFR 73.74(a) (3) (i):
