Your ref: NRC Vendor Inspection Report Number 99901043/2012

Subject: REPLY TO NOTICE OF NONCONFORMANCES CITED IN NRC INSPECTION
REPORT NO. 99901043/2012-201 dated May 18, 2012

Westinghouse acknowledges receipt of NRC Inspection Report Number 99901043/2012-201, Notice of Nonconformance dated May 18, 2012 and the Notice of Non-Conformances: 99901043/2012-201-01, 99901043/2012-201-02, 99901043/2012-03 and 99901043/2012-04. Westinghouse takes any notice of nonconformance received from the NRC seriously and is taking appropriate actions to completely resolve these issues in a timely manner, and is committed to be in compliance with the provisions of Criterion III, "Design Control" of Appendix B, "Quality Assurance Criteria for Nuclear Power Plants and Fuel Reprocess Plants," to Title 10 of the Code of Federal Regulations (10 CFR) Part 50, "Domestic Licensing of Production and Utilization Facilities" and 10 CFR Part 21, "Reporting of Defects and Noncompliance."

Westinghouse also values the results from this thorough review of our Equipment Qualification program and type testing activities. In consideration of NRC comments made both during the inspection and in the exit meeting, Westinghouse immediately initiated corrective actions to resolve the specific items identified in the Notice of Non-Conformances.

In order to complete the above activities and ensure a comprehensive evaluation of the Notices of Nonconformance, Westinghouse respectfully requests that the NRC grant an extension to the reply date. This will enable us to confirm that the reply adequately addresses the identified issues and accurately describes the actions that are being taken and have been taken. Therefore, Westinghouse requests that the reply due date be extended to fifteen days to July 2, 2012. Thank you for the NRC's consideration in this matter.

Very truly yours,

Paul A. Russ
Director
AP1000 Licensing
