

SDP – Sapphire 8

Containment Coatings

Class Exercise

1. Let's use what you learned in Containment Coatings SDP Exercise to complete a Sapphire 8 risk determination of the situation.
2. Let's discuss:
 - the results of the determination
 - differences between the Sapphire results and Phase 2 notebook results
 - risk insights that you gained from the analysis
 - the dominant accident sequence
 - areas that you might consider for future inspection
 - differences in analyses based on the varies plant types
