

WORKSHOP #2, Inspection Plan Construction

Your TEAM assignment

Chose one of the activities selected in Workshop #1 (PT or PC) to meet the objectives and requirements of IP 71111.22 and complete the following:

- Construct an inspection plan that could be used to satisfy the sample requirements of IP 71111.22.
- Prepare a presentation of your plan and be ready to discuss the technical logic of your selections as directed by the instructor.
