Subject: Cameco Resources Smith Ranch License Renewal Application

Josh -

The Technical and Environmental Reports for the Smith Ranch License Renewal application are now available in ADAMS under Accession Number ML121590502.

We're continuing to work on getting the copies of the WDEQ permits that were included with the application available in ADAMS; I'll send you an update when those documents are available.

If you have any problem accessing the documents, let me know.

Doug
