Subject: Responses to shielding questions

Pierre,

As we discussed, attached are our responses to the additional shielding questions. If there are concerns with any of these responses or additional questions arise, please contact me as soon as possible. We plan to incorporate these responses into a final revision of the SAR (Chapters 5 & 7) and the supporting calculation.

I expect to submit the 8-120B SAR revisions (shielding and thermal shield changes) no later than Friday, 22 June. The request for revision to the 10-160B to add the thermal shield will also be submitted on the 22nd.

Thanks

Mark Whittaker, CHP
