Subject: Clarification of Question Raised During the 6-7-12 Fermi Open Items Call

Mr. Keegan,

During the public comment portion of the Fermi 3 Open Items Call on 6/7/2012, you asked the staff a question regarding what criteria was used ahead of the review of Fermi 3 SSI responses related to the direct versus substitution method. I am not entirely certain that I accurately and fully captured your question. Please email me your question and I will have the technical staff prepare a response as soon as possible. This will allow me to more accurately communicate with the technical staff and prepare the response.

Jerry Hale
Project Manager
U.S. Nuclear Regulatory Commission
Office of New Reactors
