Dear Mr Hale,

Both files do open.

Mr. Keegan,

At the end of the last Fermi 3 Open Items call you mentioned that you had trouble opening the pdf file attached to the outlook scheduler. I have attached two files to this email, one is an actual ADAMS document and the other is a test file. Both are in standard pdf format. Please try and open both files and email me back your results. This may help determine the cause of any problems you are having.
