I will be on the road and can tie in by cell (with ear piece). Prefer you call my cell so I don't have to push buttons while driving or stop.

Thx

We have this meeting scheduled for tomorrow at 1000pm. Perhaps you should have something to review before hand.

Since Darrell's keen interest is goals for 6 months and timeline, the attached is part of a bigger briefing for oversight executives the first week in Jan 2012. << File: Att 1 & 2 Sbk ASR Goals and Timeline.docx >>

Chris you won't be here but your thoughts will be appreciate.

Are you available to tie in if you desire.
