RE: Materials License 42-23864-01E  
Mail Control No. 577644

Dear Mr. Struckmeyer:

Thank you for your letter dated June 11, 2012. This letter confirms that no change of control has taken place. Our intent is to ship the material from our distribution site in Illinois instead of our current site in Texas. Our primary corporate headquarters are in Abbott Park, Illinois. It is understood that an amended license with a new license number and docket number would be in order given we meet set criteria.

Please find attached our Radioactive Materials License from the State of Illinois, through the Illinois Emergency Management Agency (IEMA). We have previously requested an amendment to our state license with IEMA to include this specific distribution. It is my understanding that that amendment will be granted once we receive approval from your office. Ms. Mary Burkhart, IEMA Licensing Supervisor, has been handling that request. She can be contacted at 217-785-9947.

Thank you again for reviewing our amendment request in such a timely manner. Your efforts are appreciated. Please call me at 847-935-8254 if you have any questions.

Sincerely,

Brian J. Wimmer  
Radiation Safety Officer
