Mr. Leyse,

The proposed 50.46c rule (formerly referred to by the NRC as 50.46(b)) is currently with the Commission for review (SECY-12-0034). If the Commission approves the rule for publication, it will be published for comment in the Federal Register.

Thank you,

Tara Inverso

Subject: NRC Schedule for 50.46(b)

Dear Ms. Inverso:

Would you please let me know what the current NRC schedule is for 50.46(b)? As far as I know the proposed rule for 50.46(b) has not been published yet--though I have seen information published recently on 50.46(c). Was 50.46(b) placed on hold because of the Fukushima accident?

Thank you,

Mark Leyse
