SUBJECT: TERMINATION OF YOUR NRC RADIOACTIVE MATERIALS LICENSE

Dear Mr. Hancock:

In the NRC Form 314 "Certificate of Disposition of Materials" dated April 17, 2012, you contacted the U.S. Nuclear Regulatory Commission and indicated that you wished to terminate your NRC radioactive material license. Based on the review of the information you provided, the NRC staff has concluded that you have never possessed any licensable radioactive material at your facility.

Based on the conclusion above no further remediation or actions with respect to NRC regulated material is required. Your facility is suitable for unrestricted use and NRC license number 48-32605-01 is hereby terminated.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).
