Bryan Parker,

Currently the following isotopes @ Indianapolis Power & Light, Petersburg Generating Station are registered under Specific License No. 13-17217-01 :

Isotope	# devices	@mCi	= total mCi
CS-137	2	20	40
CS-137	11	50	550
CS-137	<u>6</u>	100	<u>600</u>
Total	19		1,190 mCi is current max possession

But, would like to increase the max possession to 1,520 mCi to cover all Cs-137 devices in case we would desire to place all Cs-137 devices on the specific license

Thanks & sorry for the delayed response !

Jeff Harter
