RAM. license # 24-32384-01

U.S. Nuclear Regulatory Commission
Region III
Materials Licensing Section
2443 Warrenville Road
Suite 210
Lisle, IL 60532

Dennis O'Dowd:

With regard to our phone conversation this morning related to the RAM license renewal application for St. Heart and Vascular, the following is submitted for your review:

Under item 9 on page 6 of the application, the licensee requests to reserve the right to upgrade survey instruments as necessary as long as they are adequate to measure the type and level of radiation for which they are used

Under item 9, Dose calibrator, the licensee assures that equipment used to measure dosages will be calibrated in accordance with nationally recognized standards or the manufacturer's instructions.

If you require further information or if I can provide other assistance, please contact my office.

Thank you.

Sincerely,

Thomas Schlarman, Radiation Physicist
