Dear Mr. Harragin:

I am responding to your electronic mail message to Chairman Jaczko dated May 29, 2012, in which you asked questions regarding the market value of liability protection, specifically at Indian Point.

There is not a site specific analysis for liability protection at Indian Point or other reactor sites. The limit of liability protection available to Indian Point, or other reactor sites, is nearly \$12 billion. This is in the form of private, primary and secondary insurance through American Nuclear Insurers and is required by the Price-Anderson Act. The Act also includes a process for dealing with incidents in which damages exceed the primary and secondary insurance coverage.

For detailed information on the Price-Anderson Act and nuclear insurance, please visit the NRC's public web site and view our fact sheet. The information can be accessed at the following link: <http://www.nrc.gov/reading-rm/doc-collections/fact-sheets/funds-fs.html>

Thank you for your interest in this matter.

Sincerely,

/RA/
