4. IMC 0612 Exh 4	10/28/11	IMC 0612 Exh 4	07/10/12

TRAINING: No.

REMARKS: IMC 0612, "Power Reactor Inspection Reports." This revision is a complete reissue which improves the integration of traditional enforcement into the Reactor Oversight Process (ROP). Significant changes include: Clarified purpose of IMC, revised definitions (present performance, issue of concern, pending significance, preliminarily significance), clarified guidance for documenting traditional enforcement licensee identified violations, added additional guidance to direct the documentation of traditional enforcement violations and associated findings in a combined write-up, corrected numerous terminology issues, enhanced and clarified the documentation requirements for CCAs, redefined present performance as it applies to CCA screening, removed guidance related to photography and SUNSI that is redundant to IMC 0620, and added additional guidance on documenting licensee identified violations.

IMC 0612 Exhibit 1, "Standard Reactor Inspection Report Outline," has been updated to align the references with IMC 0612.

IMC 0612 Exhibit 2, "Inspection Report Documentation Matrix," has been revised to include updated terminology for pending and preliminary significance.

IMC 0612 Exhibit 4, "ROP Inspection Report Cover Letter Templates," has been updated to remove redundant wording in the Security Inspection Report Cover Letter Template (based on FF 0612Exh4-1732).

DISTRIBUTION: Standard.
