Dear Sirs,

Source Production and Equipment Company, Inc. is applying for an amendment to license PCB14b.03 to extend the expiration date. This license is for the export of Category 2 Co-60, Ir-192, Se-75 and Yb-169 in special form or sealed sources.

Now that we may import Appendix P radioactive material under the general license provisions of 10 CFR 110.27, we are requesting that the statement "For imports of Appendix P radioactive materials, see General License provisions for US importers in 10 CFR 110.27." appears in the body of the license in order to clarify the new US import licensing requirements.

This applications has been filed on the attached NRC Form 7.

Our licenses are scheduled to expire on 08/31/12, so we are hoping to receive the new license prior to that date so as not to interrupt our business operations.

Sincerely,

Kelley Richardt
Regulatory and Quality Manager
