

Appendix A - Item 47

PPL Bell Bend Nuclear Power Plant
Salem Township, Luzerne County, PA

ACOE Information Requirement:

"Will the construction and heavy haul roads be permanent use roads?"

Applicant Response:

Yes, all construction and heavy haul roads installed for site access during project construction will become permanent roads used for facility operation following project completion. See Section F (Plan Set) of this Joint Permit Application for the location of construction access roads and permanent use roads. Placing construction access roads where permanent roads are needed will minimize environmental impacts.
