**Attachments:** Kansas SRS June 2012.docx

Kathy,

We just finished up our periodic IMPEP meeting this week and I got this copy of the updated SRS sheet for Kansas. I would like to request that this be updated on the website. Rachel let me know that you normally would not update it until we submit a new package, but if possible I would like the current version to be out there now. Let me know if you have any questions.

Tom,  
I've attached a copy of the "master" SRS sheet that Kathy Schneider maintains. It's been corrected to reflect the *correct* ADAMS number (ML111390443) for the June 14, 2011 response letter (w/comments) for RATS ID 2007-2 and 2007-3. Also, the SRS sheet has been updated to include the latest RATS IDs that have been issued.

This correct SRS sheet is not available on the website. If you want this updated SRS sheet to be available on the website, then please send a letter to Kathy requesting that the updated SRS sheet be available. Otherwise, she'll update the website when the next Kansas package is reviewed.

I just wanted to get you a copy of this updated SRS sheet prior to next week.

I think we parked on the street during the IMPEP, and used the meter. Is that still OK?  
Look forward to seeing you.
