RE: Disclosures Pursuant to 10 C.F.R. § 2.336; *Exelon Nuclear Texas Holdings, LLC*
(Early Site Permit for Victoria County Station Site), Docket No. 52-042-ESP

Pursuant to 10 C.F.R. § 2.336 and the agreement among the parties dated July 6, 2011, as approved by the Atomic Safety and Licensing Board's (Board's) Order dated August 10, 2011, Exelon Nuclear Texas Holdings, LLC (Exelon) is providing the enclosed disclosures with respect to Texans for a Sound Energy Policy (TSEP) Contentions SAFETY-1, SAFETY-2, SAFETY-3, ENV-1, ENV-6, ENV-7a, ENV-8a, and ENV-16, as admitted by the Board on June 30, 2011 (LBP-11-16).

Exelon's eleventh update to its initial disclosures consists of the following:

- Enclosure 1 is reserved for the names, addresses, and telephone numbers of the persons upon whose opinion Exelon will base its positions on the contentions and upon whom Exelon may rely as a witness, and a copy of the analyses and authorities upon which they base their opinions. Exelon has not yet identified witnesses for any hearing on the contentions, and will update Enclosure 1 when it has identified its witnesses.

- Enclosure 2 provides a description, by category and location, of all relevant non-privileged documents, data compilations, and tangible things in the possession, custody, or control of Exelon that are relevant to the admitted contentions in this proceeding. If you determine that you would like a copy of any of these documents, please inform me of which documents you would like and I will provide a copy to you.
- Enclosure 3 provides an index of documents, data compilations, or tangible things that may be relevant to the contentions but that contain proprietary information, Sensitive Unclassified Non-Safeguards Information (SUNSI), or otherwise protected information. Upon request by the NRC Staff, Exelon will provide a copy using the procedure in 10 C.F.R. § 2.390. If TSEP desires a copy, Exelon will provide a copy to TSEP pursuant to the Amended Protective Order dated August 26, 2011.
- Enclosure 4 provides an index of relevant documents that are otherwise publicly available.

In order to compile Enclosures 2, 3, and 4, a reasonable, good-faith search was conducted of documents in Exelon's possession, custody, or control. The attached affidavit attests that all relevant materials identified by this search have been disclosed and that the disclosures are complete and accurate as of July 1, 2012. Additions to the logs since the last disclosures are highlighted.

Exelon continues to search for additional relevant documents and in the event that Exelon identifies additional relevant documents or witnesses for any hearing on the contentions, Exelon will update these disclosures on the 15th day of each month (subject to 10 C.F.R. § 2.306(a)), as required by 10 C.F.R. § 2.336(d), the July 6, 2011 joint agreement among the parties on mandatory disclosures, and the Board's Order dated August 10, 2011.

Exelon has been conservative in identifying documents for inclusion in Enclosures 2, 3, and 4. In order to facilitate your review of these disclosures, we have made a reasonable, good faith effort to identify the contention number(s) to which each document is responsive. By identifying documents on those Enclosures, Exelon does not necessarily concede that the documents are in fact relevant or material to the admitted contentions. We also note that listed documents may also be responsive to additional contentions not identified.

In addition, Exelon is continuing to review those documents listed on Enclosure 2 to determine whether they contain proprietary information. To the extent Exelon determines that additional documents contain proprietary information, Exelon will continue to update Enclosures 2 and 3 accordingly.

Mr. James B. Blackburn, et al.

AFFIDAVIT

1. My name is Christopher J. Kerr. My title is Senior Manager, New Plant Engineering at Exelon Corporation. Working with the attorneys for Exelon, I have been responsible for managing the searches, collection, and compilation of documents, data compilations, and tangible things to comply with the mandatory disclosure requirements in 10 C.F.R. § 2.336.
2. This Affidavit relates to the eleventh update to the initial disclosures that Exelon is providing on July 16, 2012, in the above-captioned proceeding pursuant to 10 C.F.R. § 2.336 and the parties' joint agreement on mandatory disclosures, dated July 6, 2011, as approved by the Atomic Safety and Licensing Board's Order dated August 10, 2011.
3. A reasonable, good-faith search was conducted of documents, data compilations, and tangible things under the possession, custody, or control of Exelon for the types of information specified in 10 C.F.R. § 2.336(a). As provided in 10 C.F.R. § 2.336(c), this search was conducted based on information and documents reasonably available to Exelon:
 - a. The searches encompassed both electronic and paper documents.

- b. The searches encompassed both Victoria County Station (VCS) early site permit (ESP) project-related files and documents of individuals who have worked on the VCS ESP project.
 - c. The searches were conducted not only of documents, data compilations, and tangible things in the custody or possession of Exelon, but also documents, data compilations, and tangible things in the custody or possession of its contractors and subcontractors who assisted in preparing the VCS ESP application and that are accessible to Exelon.
 - d. Searches were conducted by employees of Exelon, and contractors and subcontractors of Exelon to the extent that they and their employees worked on the VCS ESP project and to the extent they possessed documents, data compilations, and tangible things used on the VCS ESP project that are accessible to Exelon.
 - e. Searches did not encompass documents in the possession of individuals who did not work on the VCS ESP project or files unrelated to the VCS ESP project.
- 4. Enclosure 2 provides the index of relevant non-privileged, non-protected documents, data compilations, and tangible things in Exelon's possession, custody, or control that were located as a result of this search.
 - 5. Enclosure 3 provides the index of relevant documents, data compilations, and tangible things in Exelon's possession, custody, or control that contain proprietary-related information.
 - 6. Enclosure 4 provides the index of relevant documents, data compilations, and tangible things in Exelon's possession, custody, or control that are publicly available.

7. Exelon has been conservative in identifying documents for inclusion in Enclosures 2, 3, and 4. By identifying documents on those Enclosures, I do not necessarily concede that the documents are in fact relevant or material to the admitted contentions.
8. These disclosures are accurate and complete as of July 1, 2012.

The statements made above are true to the best of my knowledge, information, and belief.

I declare under penalty of perjury that the foregoing is true and correct.

Executed in Accord with 10 C.F.R. § 2.304(d)

ENCLOSURE 1

EXELON WITNESSES

The name and, if known, the address and telephone number of any person, including any expert, upon whose opinion the party bases its claims and contentions and may rely upon as a witness:

Response:

Exelon has not yet identified the persons that it may rely upon as its witnesses. Exelon will update this disclosure when it has identified such persons.

A copy of the analysis or other authority upon which that person bases his or her opinion:

Response:

Exelon has not yet identified the persons that it may rely upon as its witnesses. Exelon will update this disclosure when it has identified the persons that it may use as witnesses and the analyses and authorities upon which they base their opinion.
