SUBJECT: TRINITY COAL CORPORATION, DBA FRASURE CREEK MINING DEEP
WATER PREP PLANT, LICENSE AMENDMENT, CONTROL NO. 577542

Dear Mr. Coleman:

This refers to your license amendment request. Enclosed with this letter is the amended license. This license amendment changes your authorized use location to your facilities located at Route 61, McClellan Mountain Road, Kincaid, WV, and changes your radiation safety officer to Mr. Rick Simpkins. In addition, because you did not possess specifically licensed materials at your Hughes Creek Terminal, Highway 60, Hughes Creek Road, Hughes Creek, West Virginia facility, that facility may be released for unrestricted use.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits**, see our **toolkit index page**.
