Subject: Discussion/Clarification of Thermal RAIs dated June 29, 2012

Reference: CoC-1029, Amendment No. 3

On Tuesday, July 16, 2012, NRC staff held a conference call with TN and SCE. The purpose of the call was to provide the applicant an opportunity to understand the Requests for Additional Information (RAIs) related to the thermal review and to maximize the chances that the RAI responses will allow for completion of the safety evaluation report and minimize the need for additional RAIs. During the teleconference TN requested clarification and NRC staff responded to questions on the following RAIs: 4-5, 4-6, 4-7, 4-14 and 9-1.

The current project schedule calls for TN to provide written responses to the RAIs by September 7, 2012.
