ADJUDICATIONS STAFF

Before starting any new nuke, or continuing the old ones, create an international found to stop Fukushima and to decontaminate Japan, the entire Pacific Ocean, the USA, Europe and the contaminated nuclear sites worldwide. The found will be filled with contributions of the nuclear Nations. All externalized costs should be internalized, including evacuation, health costs, property loss, premature abortions, decommissioning costs, nuclear waste moves every 50 years in a safer place, decontamination of underground water sources, the explosion risk, the core melting risk, the reestablishment of the economy of a contaminated zone, the payment of families who have sterility problems due to radiation or contamination including the permanent micro contamination of the normal operation of nuclear plants or facilities ...
