ADJUDICATIONS STAFF

I am completely against using nuclear power in the U.S. Nobody wants a disaster such as we have witnessed in Japan and Russia. Nobody wants nuclear waste buried in their state either. In my opinion, nuclear power plants are an accident waiting to happen- either through natural disaster such as earthquakes, or by terrorist sabotage. Please, please go solar, wind, gas, coal- anything but nuclear! One accident could make portions of the U.S. virtually uninhabitable. Please stop this dangerous power source NOW!
