ATTENTION: To whom it may concern

SUBJECT: Rolls-Royce submittal of new **SPINLINE 3** licensing documents

REFERENCES: (1) Project Number 0773: **SPINLINE 3** Digital Safety Instrumentation and Control Platform (TAC No. ME3600)
(2) Rolls-Royce Letter to NRC, "Rolls-Royce submittal of new **SPINLINE 3** licensing documents", dated May 31, 2012

In Reference 2, Rolls-Royce committed to provide an updated copy of the Master Configuration List (3 010 612) after completion of the factory acceptance test for the 2012 test specimen. The target date for submittal for this document identified as July 15, 2012.

Rolls-Royce hereby submits the following document in connection with the referenced NRC project.

Document Title	Rolls-Royce Document Number	Versions: Proprietary (P), Non-proprietary (NP)	Notes
Master Configuration List	3 010 612 G	P	Replaces 3 010 612 D submitted June 15, 2010

Rolls-Royce requests that the proprietary document be withheld from public disclosure. In accordance with 10 CFR 2.390, "Public inspections, exemptions, requests for withholding", an affidavit is enclosed identifying the specific portions of the above documents that are proprietary and the basis for making that determination.

A nonproprietary version of Rolls-Royce document 3 010 612 G is not provided based on the guidance in NRC Information Notice (IN) 2009-07. As noted in IN 2009-07, in instances in which a nonproprietary version would be of no value to the public because of the extent of the proprietary information, the agency does not expect a nonproprietary version to be submitted.

Affidavit

STATE OF TENNESSEE)

)

COUNTY OF HAMILTON)

1. In accordance with 10 CFR 2.390, "Public inspections, exemptions, requests for withholding", Rolls-Royce requests withholding from public disclosure of the documents listed in Table 1, which is attached to this affidavit.
2. I am familiar with the criteria applied by Rolls-Royce to determine whether certain Rolls-Royce information is proprietary. I am familiar with the policies established by Rolls-Royce to ensure the proper application of these criteria.
3. As required by 10 CFR 2.390, Rolls-Royce has included in Table 1 the following information:
 - Identity of the document or part sought to be withheld;
 - Declaration of the basis for proposing the information be withheld, encompassing considerations set forth in § 2.390(a);
 - Specific statement of the harm that would result if the information sought to be withheld is disclosed to the public; and
 - Locations in the documents of all information sought to be withheld.
4. As required in § 2.390(b)(4); Rolls-Royce wishes to note that the request for withholding from public disclosure applies to pages that contain commercially sensitive information that Rolls-Royce normally discloses only under a Non-Disclosure Agreement (NDA). This commercially sensitive information is not available in public sources and is the type of information customarily held in confidence by Rolls-Royce and our competitors.

5. Rolls-Royce is transmitting this information to NRC in confidence.
6. As noted in Table 1, release of this information in a public forum could cause harm to Rolls-Royce by revealing trade secrets and/or commercially sensitive design and operational details and technical processes related to designing, building, and/or operating a *SPINLINE 3* digital safety instrumentation and control system.
7. As Rolls-Royce US I&C Licensing Manager, I have been specifically delegated responsibility for reviewing the information sought to be withheld, and I am authorized to apply for its withholding on behalf of Rolls-Royce.
8. The foregoing statements are true and correct to the best of my knowledge, information, and belief.
