Stephanie,

By letter dated June 18, 2012, (Agencywide Documents Access and Management Systems (ADAMS) Accession No. ML12171A463), Entergy Operations, Inc. (Entergy, the licensee), in accordance with 10 CFR 50.4 and 10 CFR 50.90, requested U.S. Nuclear Regulatory Commission (NRC) approval of a License Amendment Request - Cyber Security Plan Implementation Schedule Milestones at Arkansas Nuclear One – Units 1 and 2.

The purpose of this letter is to provide the results of the NRC staff's acceptance review of the Entergy submittal. The acceptance review was performed to determine if there is sufficient technical information in scope and depth to allow the NRC staff to complete its detailed technical review. The acceptance review is also intended to identify whether the application has any readily apparent information insufficiencies in its characterization of the regulatory requirements or the licensing basis of the plant.

The NRC staff has reviewed your application and concluded that it provides technical information in sufficient detail to enable the NRC staff to proceed with its detailed technical review and make an independent assessment regarding the acceptability of the request in terms of regulatory requirements and the protection of public health and safety and the environment. If additional information is needed for the NRC staff to complete its technical review, you will be advised by separate correspondence.
