Certification Board of Nuclear Cardiology
ATTN: Dawn Edgerton
Chief Executive Officer
101 Lakeforest Boulevard, Suite 401
Gaithersburg, Maryland 20877

Dear Ms. Edgerton:

I received your June 13, 2012 letter providing additional information on recent changes to the Certification Board of Nuclear Cardiology (CBNC) board certificates and program for physicians that completed their training and experience more than 7 years before applying to take the CBNC board examination.

One of the attachments provided in your June 13, 2012 letter contained an extensive amount of personally identifiable information (PII) for an individual randomly selected from your pool of applicants who had completed their training and experience more than 7 years before taking the board examination. NRC does not require this information because we are not taking an action involving this individual. Furthermore, such PII precludes NRC from making the information submitted publically available. Therefore, I am returning your June 13, 2012 letter and its attachments (except the PII attachment which has been destroyed).

Please resubmit the additional information in a manner that does not include PII so that NRC can make the information publically available. If you have any questions, please contact Donna-Beth Howe, Ph.D. of my staff at (301) 415-7848 or via e-mail: donna-beth.howe@nrc.gov.
