NOTE TO FILE: FSME-2011-AS-0004

FROM: Tamara D. Powell, FSME OAC

SUBJECT: RECORD OF PHONE CONVERSATION

On Thursday, March 15, 2012, I spoke to Mr. Jeffery Parsons. I informed Mr. Parsons that typically the NRC takes reasonable efforts not to disclose a CI's identity to any organization, individual outside the NRC, or the public. I also stated that if asked, we will neither confirm nor deny a CI's identity. However, I indicated to him that because the closure letter had been publicly released, he was considered to be "widely known" in association with the Colorado concern which means that the NRC can no longer protect his identity as the source of the concern. Mr. Parsons said that he understood and did not have any questions.
