Subject: RE: DEIS FERMI Unit 3

The NRC public web site has information that would be useful to you.
The Fermi 3 DEIS and Detroit Edison's application materials are available there.
See the following link: <http://www.nrc.gov/reactors/new-reactors/col/fermi.html>

I will have a CD sent to you containing the Fermi 3 DEIS.

Thanks.....

Subject: DEIS FERMI Unit 3

Mr. Olson,

The Michigan Department of Transportation Airports Division has received an email notification of a public hearing on the DEIS for the FERMI 3 project. We have been attempting to locate an on-line copy of the DEIS with no success. Since it appears the proposed project is at least in part to construct a new tower unit we believe the structure may be regulated under Michigan's Tall Structures Act (Act 259). We are requesting the following information to facilitate our review of issues related to Airport safety.

- A map depicting the proposed location of the new tower and any ancillary structures.
- Plan sheets illustrating structure elevation(s), locations of any new cooling ponds and/or effluent discharge locations.

Thank you for your assistance.
