Barry,

Thank you for your kind response. Yes, staff is fine with October and I will check with them on the dates. I have no problem to do the audit in Princeton, NJ.

talk to you soon,

Paul

Paul,

We reviewed the draft ESW/UHS audit plan with MNES and would prefer that the audit be conducted at URS' office in Princeton, NJ. URS is developing the UHS design for the S-COLA and the URS office location would provide ready access to SMEs and documentation to facilitate the audit. We also agree that October would be a good time frame to conduct the audit.

In reviewing the audit plan, we noted that the Component Cooling Water system lists "associated calculation related to the removal of the boric acid evaporator ..." as a calculation to be reviewed. It would be helpful in preparing for the audit if the Staff could identify more specifically what they want to review (e.g., heat loads, flow requirements, changes in activities, etc.).

Please let me know the preferred October dates to conduct the audit, and of course, if you have any questions or need additional information.

Regards,

Barry

Hi Barry,

October would work for the NRC to come down to North Anna for the audit.

regards,

Paul

Hi Larry,

I told North Anna that staff would have no problem to come down for the audit. He is thinking October. Would that work for you.

Paul

Hi Paul,

Thank you for sending the draft audit plan. I am working with our vendors to determine the best location for the audit, considering the availability of documents and SMEs needed to support the audit. I will let you know the preferred location by July 6<sup>th</sup>.

We are expecting NRC to conduct a seismic related audit in late August or September and therefore recommend that the ESW/UHS audit be conducted in October.

Please keep me informed as you finalize the audit plan.

Regards,

Barry

Hi Barry,

Here is the Draft audit Plan for 9.2.1, 9.2.2 and 9.2.5.

Regards,

Paul
