Subject: New License Application Clarifying Questions
(NOTE: This will be used as the Documents Title in ADAMS)

I called Mr. Adas to clarify the accuracy of information submitted in their new license application dated July 11, 2012.

- 1: I mentioned to Mr. Adas that he had requested a storage location in Virginia, an Agreement State and that we were unable to do so. He stated that his intent was to obtain an NRC license for conducting licensed activities in areas of Federal jurisdiction, including the District of Columbia. I told him we would only be authorizing them for temporary jobsites in areas of Federal jurisdiction.
- 2: I also inquired about the maximum number of devices they would routinely use in areas of Federal jurisdiction at any one time. He wanted to list the maximum amount they possess in the event all the devices are in use at the same time. I told him we would do that.

I started that the license should be issued sometime next week. I thanked him for his time and ended the call
