

## **Section D**

### **Cultural Resource Notice**

1. Cultural Resource Form, attachments, and proof of receipt
2. Pennsylvania Historical & Museum Commission (PHMC) Correspondence

#### Status

Detailed archaeological and architectural/historical surveys at and in the vicinity of the Bell Bend Nuclear Power Plant (BBNPP) site have been conducted to support the licensing and permitting of the project. This section provides the cultural resource form and all correspondence with the PHMC to date. Copies of reports produced in association with cultural resource investigations completed to date are included in Appendix C of the Joint Permit Application and are listed below. All work has been completed in coordination with PHMC. PPL Bell Bend, LLC (PPL) continues to comply with PHMC requirements. An additional Phase II evaluation of a single site will be completed in December 2011. PHMC has concluded that there are no architectural site impacts and thus no Criteria of Effects Analysis is needed. Final PHMC clearance is expected in mid-2012 and a final clearance letter will be filed for inclusion in the application record when received.

#### Appendix C Cultural Resource Reference Documents:

1. Final Letter Report Phase Ia Cultural Resources Reconnaissance of PPL Lands in the Vicinity of Susquehanna Steam Electric Station, Luzerne County, Pennsylvania, June 2007.
2. Technical Report Phase Ia Cultural Resources Reconnaissance, Berwick, PA NNP-1 Areas 6, 7, 8 and Confers Lane Parcel, Luzerne County, Pennsylvania, February 2008.
3. Management Summary Phase Ib Cultural Resources Investigation, Bell Bend Nuclear Power Plant, Luzerne County, Pennsylvania, ER 81-0658-079, September 2008.
4. Management Summary, Supplemental Phase Ib Cultural Resources Investigations, Bell Bend Nuclear Power Plant, Luzerne County, Pennsylvania, ER 81-0658-079, November 17, 2008.
5. Addendum Report Second Supplemental Phase Ib Cultural Resources Investigation Power Block Relocation, Bell Bend Nuclear Power Plant, Luzerne County, Pennsylvania, October 8, 2010.
6. Phase I Cultural Resources Investigations and Phase II National Register Site Evaluations Technical Report, Bell Bend Nuclear Power Plant, Luzerne County, Pennsylvania, October 11, 2010<sup>1</sup>.

<sup>1</sup>Contains correspondence with PHMC.

**BELL BEND NUCLEAR POWER PLANT  
CULTURAL RESOURCE NOTICE FORM  
BNP-2010-253      Docket No. 52-039**

Enclosed please find a Cultural Resource Notice Form for the PPL Bell Bend Nuclear Power Plant Site along with a listing of the Cultural Resource studies performed to date on-site. This information is provided as part of the process for submitting an NPDES Permit for Stormwater Associated with Construction Activities.

Please do not hesitate to contact Brad Wise of our staff [610-774-6508 or [bawise@pplweb.com](mailto:bawise@pplweb.com)] directly with any additional needs or questions.

Respectfully,

A handwritten signature in black ink, appearing to read "T. Harpster", is written over the printed name. The signature is fluid and cursive, with a long horizontal stroke extending to the left.

Terry L Harpster

**Bell Bend Nuclear Power Plant (BBNPP)**  
**Attachments to Cultural Resource Notice**

**Bell Bend Nuclear Power Plant (BBNPP)**  
**Cultural Resource Notice: Section B, Location of Project**

Bell Bend Nuclear Power Plant (BBNPP) is proposed to be constructed west of the existing Susquehanna Steam Electric Station site in the Town of Berwick, Salem Township, Luzerne County, Pennsylvania. Figure 1 provides a USGS Quadrangle locus map indicating the location of the proposed BBNPP facility.

**Bell Bend Nuclear Power Plant (BBNPP)**  
**Cultural Resource Notice: Section H**  
**Project Description and Supporting Information**

PPL Bell Bend, LLC (the Applicant) proposes to construct a new 1600 MWe nuclear power plant on lands adjacent to the existing Susquehanna Steam Electric Station (SSES) near the Borough of Berwick, in Salem Township, Luzerne County, Pennsylvania. The Applicant (PPL Bell Bend, LLC) is currently in the process of designing, siting and licensing the new nuclear facility, named the Bell Bend Nuclear Power Plant ("BBNPP" or "the Project").

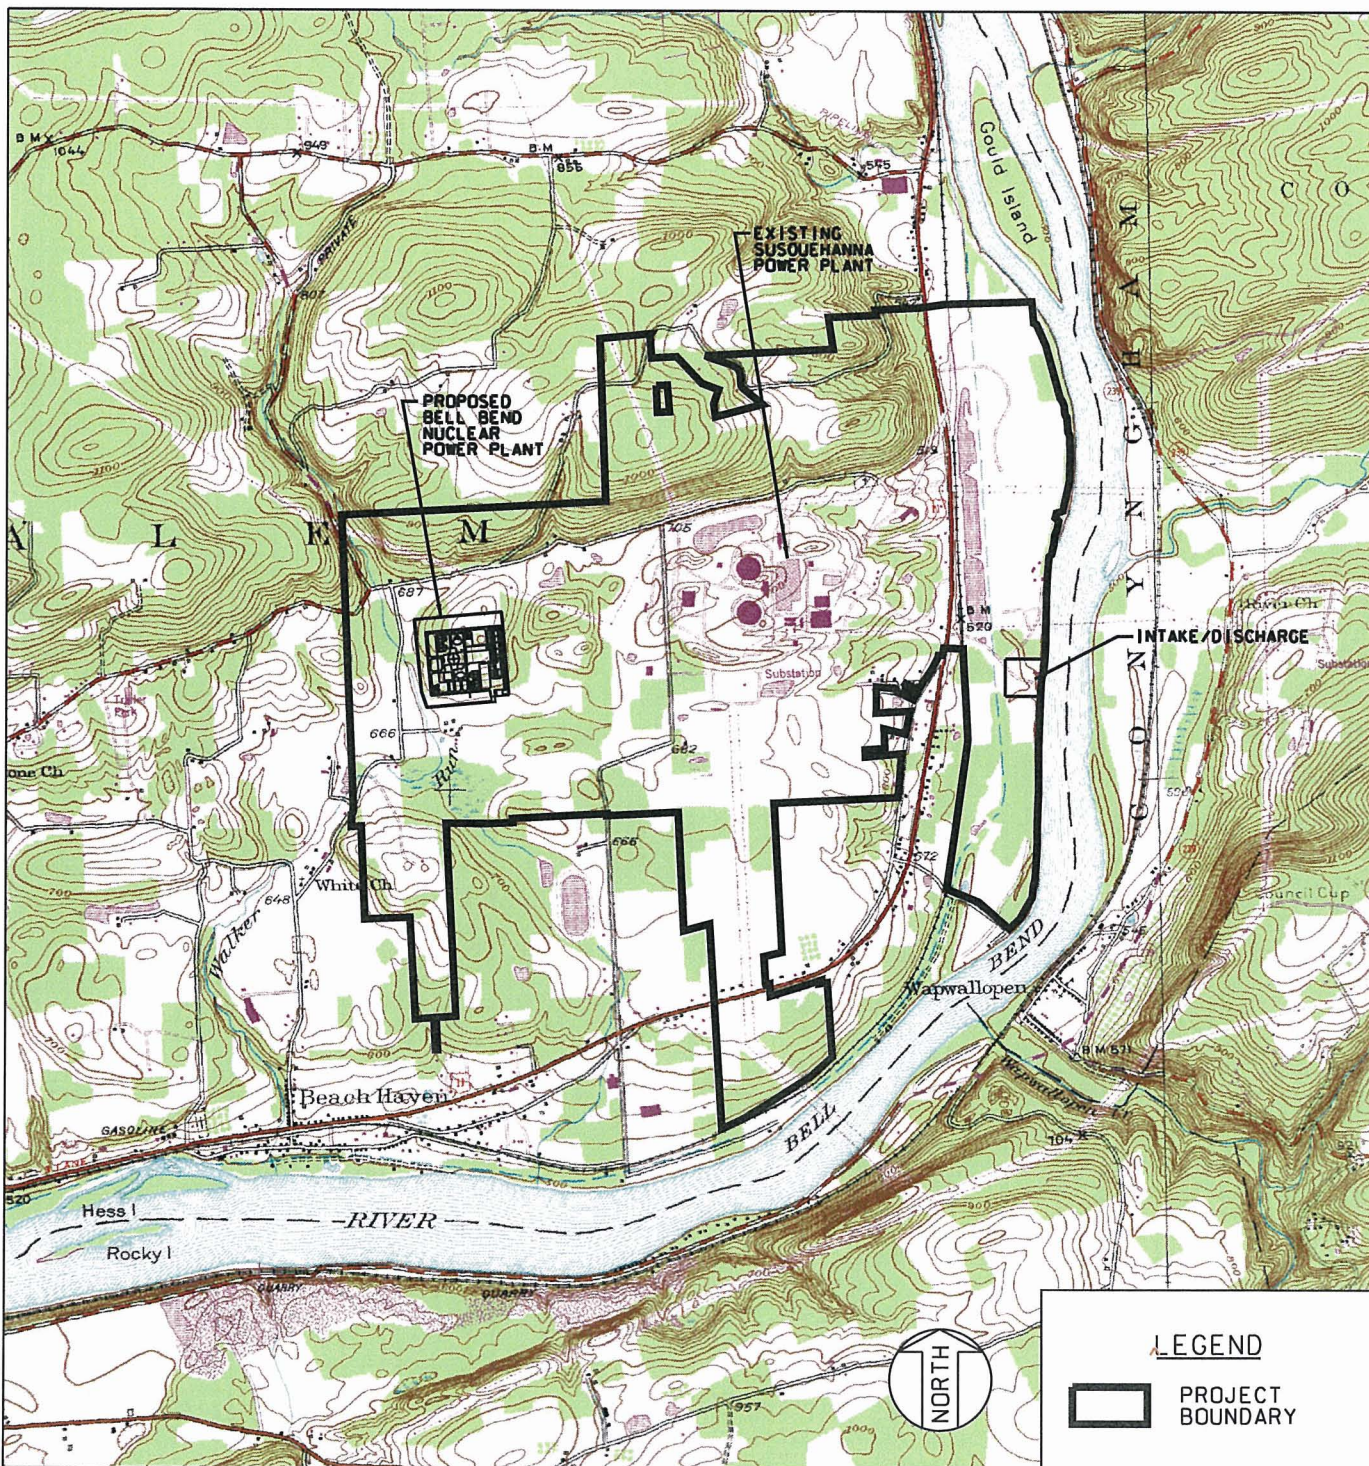

Construction of BBNPP will alter approximately 700 acres of land within a site of approximately 1,100 acres. The total area under PHMC review (Area of Potential Effects) associated with BBNPP is currently 1,078 acres. Land use within the Project site is predominantly agricultural and forested, with lesser areas of developed lands associated with SSES, adjacent residential property, and roadways.

Activities with the potential to affect cultural and historic resources at BBNPP include extensive land clearing and grading within the boundaries of the Project as shown on Figure 1. To ensure that appropriate measures were taken to investigate, document, and protect cultural and historic resources on and in the vicinity of BBNPP, an initial consultation with PHMC was held in 2008, and PPL continues to consult and coordinate activities supporting characterization of BBNPP at this time.

In coordination with PHMC along with the NRC and consulting state and federal agencies, PPL has conducted cultural investigations at BBNPP since the initial consultation including a Phase Ib archaeological survey, an architectural survey, a Supplemental Phase Ib cultural resources survey, Phase II National Register site evaluations, and a Second Supplemental Phase Ib cultural resources survey (supporting the movement of the plant footprint in 2010). PPL is currently finalizing the technical report documenting the Phase I Cultural Resources Investigations and Phase II National Register Site Evaluations for submittal to PHMC for its review. An addendum report providing results of the Second Supplemental Phase Ib cultural resources investigation is also being finalized by PPL and will be submitted to PHMC for review. Ongoing investigations and coordination with PHMC is expected throughout 2010 and 2011.

Pertinent correspondence is attached to this Cultural Resources Notice detailing the Project's interactions with PHMC BHP. A list of documents submitted to PHMC is also provided as an attachment.

Re: ER# 81-0658-079-G  
Construction of Additional Nuclear Power  
Generation Unit adjacent to the Susquehanna Steam  
Electric Station Site, Salem Township, Luzerne  
County, Pennsylvania

Dear Mr. Wrobel:

The Bureau for Historic Preservation (the State Historic Preservation Office) has reviewed the above named project in accordance with Section 106 of the National Historic Preservation Act of 1966, as amended in 1980 and 1992, and the regulations (36 CFR Part 800) of the Advisory Council on Historic Preservation as revised in 1999 and 2004. These regulations require consideration of the project's potential effect upon both historic and archaeological resources.

Archaeological Resources

The archaeological sites listed below are located in your project area and others are likely to exist. These resources could be adversely affected by project activities. A Phase I archaeological survey is necessary to verify the extent of known sites and to locate other sites. Phase II investigations may also be needed to determine the eligibility of sites for listing in the National Register of Historic Places. It is our understanding that an archaeological investigation has been initiated and is on going. We look forward to working with you in this matter.

**P.A.S.S. # 36Lu15, 36Lu16, 36Lu48, 36Lu49, 36Lu50, 36Lu51**

Historic Structures

Additional information is needed for us to proceed with our review for historic structures. Please provide the date of construction of the power plant as well as an historical context on the development of nuclear power plants and where the Susquehanna plant fits into this context.

ER# 81-0658-079-G  
8 April 2008  
Page 2

If you need further information in this matter concerning archaeological resources please consult Steven McDougal at (717) 772-0923. For information concerning historic structures, please call Ann Safley at (717) 787-9121.

Sincerely,

A handwritten signature in black ink, appearing to read 'Douglas C. McLearn', with a stylized, flowing script.

Re: ER 81-0658-079-H  
NRC: Proposed Bell Bend Nuclear Power Plant  
Salem Township, Luzerne County  
Phase IA Cultural Resources Survey

Dear Mr. Price:

The Bureau for Historic Preservation (the State Historic Preservation Office) has reviewed the above named project in accordance with Section 106 of the National Historic Preservation Act of 1966, as amended in 1980 and 1992, and the regulations (36 CFR Part 800) of the Advisory Council on Historic Preservation as revised in 1999 and 2004. These regulations require consideration of the project's potential effect upon both historic and archaeological resources.

We agree with the recommendations of the Phase IA archaeological study and look forward to working with you further as the successive phase of work proceeds.

We have reviewed the preliminary information concerning historic structures in the Area of Potential Effect of this project. Based on this information, no further survey work will be needed on the following properties.

1. Beach Grove Cemetery, Salem Twp., Luzerne County

Re: ER 81-0658-079-M  
NRC: Bell Bend Nuclear Power Plant  
Luzerne County, Conyngham, Nescopek, Salem Townships  
Management Summary Phase Ib Cultural Resource Investigations  
Determinations of Eligibility

Dear Ms. Munford:

The Bureau for Historic Preservation (the State Historic Preservation Office) has reviewed the above named project in accordance with Section 106 of the National Historic Preservation Act of 1966, as amended in 1980 and 1992, and the regulations (36 CFR Part 800) of the Advisory Council on Historic Preservation as revised in 1999 and 2004. These regulations require consideration of the project's potential effect upon both historic and archaeological resources.

The Bureau for Historic Preservation has reviewed 22 resources included in the above listed report. These resources included farms, farmsteads, a church, two bridges, a RR connector line, a highway, and a canal remnant. The overall submission is lacking in historic context, and evaluation.

Please submit the following additional information so that we can complete our review of the 22 properties submitted in this survey.

1. The farms are all inadequately documented as complete forms were not submitted. The narrative physical and historical sections are missing. The complete farm, including acreage, needs to be described and addressed. While for this particular region it will be difficult to find early documentation, and the agricultural context survey has not yet targeted this area, the consultant should still implement the Agricultural Researcher Checklist. The Agricultural Context can be obtained from our website at [www.phmc.state.pa.us/bhp](http://www.phmc.state.pa.us/bhp). Based on the photos, it appears that an analysis of the 1927 Agricultural Census data and investigation of 20th century agricultural patterns in this county will be very helpful in explaining the types of buildings and changes that will determine Criterion A and C significance for the farms and farmsteads. Historic and current aerials should be submitted. Current use of the land and buildings should be noted.

2. The potential for a rural historic agricultural district should be investigated, as the area appears to retain an active agriculture base of contiguous farms.

Page 2

B. Munford

Oct. 28, 2008

3. The vernacular architecture of the area must be addressed when evaluating for Criterion C. The photos show several farmhouses with distinctive windows in the attic story. Provide more details on the regional house types and features.
4. Provide a project map that shows the location of all resources and identify them with survey codes. It was difficult to understand the relationship of the resources in the Area of Potential Effect without a comprehensive map, and difficult to locate the resources on REGIS (our online database system) based solely on the individual resource USGS maps provided.
5. Please support the eligibility findings for the Sunbury Line, the Lackawanna & Bloomsburg RR, the Susquehanna & Tioga Turnpike, both stone arch bridges, the United Reformed & Lutheran Church, the north branch of the PA Canal, and the Wapwallopen Historic District. The historic district form only provided info about the buildings that would be within the APE; the form must provide info about the entire district. The canal branch evaluation should consider Key#141673, the North Branch Canal district in adjacent Berwick Borough, and would likely be considered part of that larger resource. More info must be provided about the church, especially the 1952 restoration. The late date of the stone arch bridges (1935) was curious but not nearly enough info was provided to evaluate them. Do they have Department of Transportation identifying BMS numbers and have they been previously evaluated. Additional information must be provided to evaluate the railroad and Turnpike resources. Simply being associated with the theme of Transportation does not imply that they are significant.

If you need further information regarding historic structures please consult with Susan Zacher at (717) 783-9920.

Sincerely,

Douglas C. McLearen, Chief  
Division of Archaeology &  
Protection

Re: ER# 81-0658-079-N  
Management Summary, Phase Ib Cultural  
Resources Investigation, Bell Bend Nuclear Power  
Plant, Salem Township, Luzerne County,  
Pennsylvania

Dear Mr. Wrobel:

The Bureau for Historic Preservation (the State Historic Preservation Office) has reviewed the above named project in accordance with Section 106 of the National Historic Preservation Act of 1966, as amended in 1980 and 1992, and the regulations (36 CFR Part 800) of the Advisory Council on Historic Preservation as revised in 1999 and 2004. These regulations require consideration of the project's potential effect upon both historic and archaeological resources.

This report meets our standards and specifications as outlined in *Cultural Resource Management in Pennsylvania: Guidelines for Archaeological Investigations* (BHP 1991) and the Secretary of the Interior's Guidelines for Archaeological Documentation. This report documents survey of 11 previously unrecorded archaeological sites.

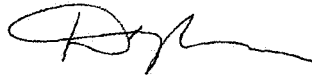

We agree with the recommendation that the following sites are not eligible for inclusion on the National Register of Historic Places: **Site 1 (36Lu278), Site 6 (36Lu282), Site 8 (36Lu284), and Site 11 (36Lu287).** In our opinion, no further work is necessary at these sites.

We agree with the recommendation that the following sites have potential to be eligible for inclusion on the National Register of Historic Places: **Site 2 (36Lu279), Site 3 (36Lu280), Site 4 (36Lu281), Site 5 (36Lu288), Site 7 (36Lu283), Site 9 (36Lu285), and Site 10 (36Lu286).** In our opinion, these sites should either be avoided by construction or Phase II archaeological investigations will be necessary.

Management Summary, Supplemental Phase Ib  
Cultural Resources Investigation, 263 Acres of  
Additional Project Area Bell Bend Nuclear Power  
Plant, Salem Township, Luzerne County,  
Pennsylvania

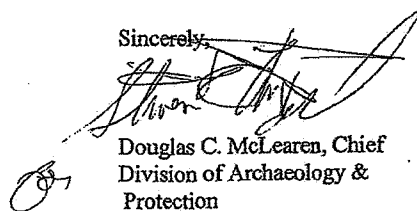

Dear Mr. Harpster:

The Bureau for Historic Preservation (the State Historic Preservation Office) has reviewed the above named project in accordance with Section 106 of the National Historic Preservation Act of 1966, as amended in 1980 and 1992, and the regulations (36 CFR Part 800) of the Advisory Council on Historic Preservation as revised in 1999 and 2004. These regulations require consideration of the project's potential effect upon both historic and archaeological resources.

This report meets our standards and specifications as outlined in *Cultural Resource Management in Pennsylvania: Guidelines for Archaeological Investigations* (BHP 1991) and the Secretary of the Interior's Guidelines for Archaeological Documentation. This report documents archaeological survey of an additional 263 acres added to the original 630 acres reported in the previous Phase Ib Management Summary. No archaeological sites were found as a result of this survey and we agree with the recommendations that no further archaeological work is necessary within this area. We look forward to working with you further in this matter.

If you need further information in this matter please consult Steven McDougal at (717) 772-0923.

Re: ER 81-0658-079-U  
NRC: Bell Bend Power Plant Phase IB Investigations Management  
Summary: Historic Resources  
Conyngham, Nescopeck, Salem Townships, Luzerne County

Dear Ms. Cole:

The Bureau for Historic Preservation (the State Historic Preservation Office) has reviewed the above named project in accordance with Section 106 of the National Historic Preservation Act of 1966, as amended in 1980 and 1992, and the regulations (36 CFR Part 800) of the Advisory Council on Historic Preservation as revised in 1999 and 2004. These regulations require consideration of the project's potential effect upon both historic and archaeological resources.

We concur with the findings of the agency that the following resources are eligible for the National Register of Historic Places.

1. United Reformed & Lutheran Church (Old River Church), Conyngham Township, Luzerne County: This church is an excellent example of the Federal style of architecture and meets National Register criterion C.
2. Woodcrest, 3209 SR 239, Conyngham Township, Luzerne County: This farms is eligible for its local agricultural significance and meets National Register criterion A. It may also be eligible under criterion C, for its architectural significance, however, information and photographs of its interior would need to be submitted to evaluate for this criterion.

We disagree with the findings of the agency concerning the eligibility of the following resource. In our opinion, this resource is eligible for the National Register of Historic Places.

3. North Branch of the Pennsylvania Railroad, Salem Township, Luzerne County: This intact section of the canal reflects the significance of the canal in the mid to late 19<sup>th</sup> century and therefore is eligible under National Register criterion A.

We concur with the findings of the agency that the following properties are not eligible for the National Register of Historic Places. Based on the information supplied they are not historically or architecturally significant.

4. Thrash Farm, 783 Berwick-Hazleton Highway, Nescopeck Township, Luzerne County
5. Fortner Farm, 212 E. Cherry Road, Nescopeck Township, Luzerne County
6. Croll Farm, 811 River Road, Nescopeck Township, Luzerne County
7. Raber Farm, 950 Berwick-Hazleton Highway, Nescopeck Township, Luzerne County
8. Michaels Farm, 4252 N. Market Street, Salem Township, Luzerne County
9. Heller Farm, 4210 N. Market Street, Salem Township, Luzerne County
10. Valley View Farm, Salem Township, Luzerne County
11. Susquehanna & Tioga Turnpike, Salem Township, Luzerne County
12. Jameson Farm, 62 Kiliti Road, Salem Township, Luzerne County

We disagree with the findings of the agency concerning the National Register eligibility of the following resources. In our opinion, these railroads are not eligible.

13. Pennsylvania & Sunbury Line of the Delaware and Hudson Railroad, Nescopeck Township, Luzerne County: This line was a connection between major Railroad lines of the Pennsylvania Railroad. While Sunbury, Wilkes-Barre and Hazleton Were all major economic centers at the time, it does not make this spur Significant nor played a significant role in the transportation of anthracite coal.
14. The Bloomsburg Division of the Delaware, Lackawanna and Western Railroad, Salem Township, Luzerne County: Based on the information provided the Significance of this section of the DL& W is unproven. It does not appear to have provided significant competition to other railroad lines or to have been an important carrier in relation to other railroads.

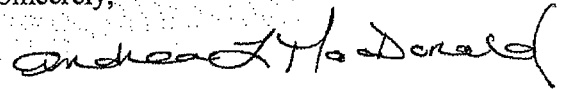

We are unable to complete our review of the following resources until additional information is submitted.

15. Stone Arch Bridge/North Market Street Bridge, Salem Township, Luzerne County: Please supply the correct length measurement of this bridge (see attached guidance for measuring bridges). The submission states that there are only 3 intact stone arch bridges in the county. Our on-line Geographical Information Submission shows that there are over 50 stone arch bridges. Please evaluate this bridge in the context of the bridge survey.
16. Wapwallopen Historic District (potential), Conyngham Township, Luzerne County: Please contact our agency to schedule a site visit to verify the presence and boundaries of a historic district.

Re: ER# 81-0658-079-CC  
Addendum Report, Second Supplemental Phase Ib  
Cultural Resource Investigation, Power Block  
Relocation, Bell Bend Nuclear Power Plant, Salem  
Township, Luzerne County, Pennsylvania

Dear Mr. Sgarro:

The Bureau for Historic Preservation (the State Historic Preservation Office) has reviewed the above named project in accordance with Section 106 of the National Historic Preservation Act of 1966, as amended in 1980 and 1992, and the regulations (36 CFR Part 800) of the Advisory Council on Historic Preservation as revised in 1999 and 2004. These regulations require consideration of the project's potential effect upon both historic and archaeological resources.

This report meets our standards and specifications as outlined in *Guidelines for Archaeological Investigations in Pennsylvania* (BHP 2008) and the Secretary of the Interior's Guidelines for Archaeological Documentation. This report documents two previously unrecorded archaeological sites with the project area. These sites include **GAI Site 12 (36Lu301)** and **GAI Site 13 (36Lu302)**.

We agree that **36Lu301** is potentially eligible for inclusion on the National Register of Historic Places. If this site cannot be avoided by project activities, then a Phase II investigation is necessary to formally determine site eligibility.

We agree that **36Lu302** is not eligible for inclusion on the National Register. In our opinion, no further archaeological work is necessary at this site.

Please send four additional copies of the final report (three bound and one unbound) for our files and distribution to the repositories.

Luzerne County, Pennsylvania

Dear Mr. Sgarro:

The Bureau for Historic Preservation (the State Historic Preservation Office) has reviewed the above named project in accordance with Section 106 of the National Historic Preservation Act of 1966, as amended in 1980 and 1992, and the regulations (36 CFR Part 800) of the Advisory Council on Historic Preservation as revised in 1999 and 2004. These regulations require consideration of the project's potential effect upon both historic and archaeological resources.

### Archaeological Resources

This report meets our standards and specifications as outlined in *Guidelines for Archaeological Investigations in Pennsylvania* (BHP 2008) and the Secretary of the Interior's Guidelines for Archaeological Documentation. We agree that the following sites are not eligible for inclusion on the National Register of Historic Places: **36Lu279, 36Lu280, 36Lu281, 36Lu283, 36Lu285, and 36Lu286.**

It is our opinion that site **36Lu288** is eligible for inclusion in the National Register of Historic Places. The presence of intact, dateable cultural features in the northern half of the site, one of which was located within a buried A horizon, indicates a sufficient level of integrity to warrant this designation. Use of the **northern half of the site** as a lay-down area, where cultural features were found and artifact concentrations were highest, should be considered an adverse effect. We strongly recommend that this portion of the site be avoided by construction activities either by fencing off the area as a restricted location or by use of geotextile and fill as a protective measure. If these measures cannot be undertaken, then Phase III excavation should be undertaken to mitigate the adverse effect of the project to the eligible resource. No features were found in the **southern half of the site** and artifact concentrations were very low. As a result, use of this location as a lay-down area should be considered no adverse effect. If the project scope is

changed such that there will be impacts below 80 cm in any part of the site area, additional archaeological investigation will be necessary to determine whether there will be adverse effects to intact cultural material.

### **Historic Structures**

It is the opinion of the State Historic Preservation Officer that the following properties are not eligible for listing in the National Register of Historic Places:

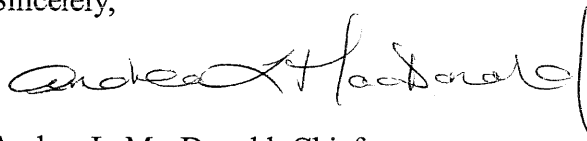

House (Red Brick Studios), Key# 155064  
North Market Street Bridge, Key# 155055

Stone Arch Bridge, Key# 155054

The Wapwallopen Historic District merits a site visit to properly evaluate its National Register eligibility potential. You will need to schedule a site visit with the Bureau staff.

If you need further information in this matter concerning archaeological resources please consult Steven McDougal at (717) 772-0923. For information concerning historic structures please consult Ann Safley at (717) 787-9121.

Sincerely,

Andrea L. MacDonald, Chief  
Division of Preservation Services
