Dr. David M. Slaughter, Chief Executive Officer
Nuclear Labyrinth LLC
10874 South Bay Meadow Circle
Sandy, UT 84092

SUBJECT: AEROTEST OPERATIONS, INC. - ACCEPTANCE OF REQUESTED LICENSE
TRANSFER APPLICATION (TAC NO. ME8811)

Dear Mr. Brisighella and Dr. Slaughter:

By letter dated May 30, 2012, supplemented by letter dated July 19, 2012, Aerotest Operations, Inc. (Aerotest) and Nuclear Labyrinth, LLC (Nuclear Labyrinth) jointly submitted an application requesting U.S. Nuclear Regulatory Commission (NRC) consent, pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR) Section 50.80, for the indirect license transfer of the Aerotest Radiography and Research Reactor (ARRR) Facility Operating License No. R-98. The indirect license transfer would occur as a result of the proposed sale of Aerotest by Autoliv, ASP, Inc. to Nuclear Labyrinth. The purpose of this letter is to provide the results of the NRC staff's acceptance review of this indirect license transfer request. The acceptance review was performed to determine if there is sufficient financial and technical information in scope and depth to allow the NRC staff to complete its detailed financial and technical review. The acceptance review is also intended to identify whether the application has any readily apparent information insufficiencies in its characterization of the regulatory requirements or the licensing basis of the plant.

The NRC staff has reviewed your application and concluded that it does provide financial and technical information in sufficient detail to enable the NRC staff to complete its detailed financial and technical review and make an independent assessment regarding the acceptability of the proposed license transfer application in terms of regulatory requirements and the protection of public health and safety and the environment. Given the lesser scope and depth of the acceptance review as compared to the detailed financial and technical review, there may be instances in which issues that impact the NRC staff's ability to complete the detailed financial and technical review are identified despite completion of an adequate acceptance review. You will be advised of any further information needed to support the NRC staff's detailed financial and technical review by separate correspondence.

D. Brisighella, D. Slaughter
